

Lych Gate

Leonard Butterworth, son of George Butterworth, Architect and Surveyor for Margate Borough Council in the first quarter of the 20th century, designed the Lych Gate for Woodford House School in about 1920.

Both Leonard and his father were members of Birchington's voluntary Fire Brigade and were included in a large shield and photo display done in 1921. They lived in 'Semaphore House' in Semaphore Road, from at least 1914.
