

## **THE ROSSETTI DUG-OUT:**

In consequence of frequent air raids on the Isle of Thanet, H.O. O'Hagan Esq. of Rossetti, caused a 'dug-out' to be constructed in his garden and kindly invited his friends and neighbours to take refuge in case of further raids.

The 'dug-out' is 30 feet below the surface and is strengthened with a layer of concrete; it is entered by about 60 concrete steps and at the further end is a well, with a concrete dome.

It is calculated to hold 150 persons and took 10 weeks to construct.
